OPEN POSITION ANNOUNCEMENT

1. Experienced Researcher / Senior PostDoc – Cancer Biology Expert (m/f)

A Senior Postdoc (“Experienced Researcher”) position for a cancer biology expert is available at the Faculty of Medicine University of Rijeka as part of the FP7 Infrastructure grant „Upgrading the capacities for research in translational medicine“ (TransMedRi).

Required qualifications and skills:

- PhD degree
- Excellent proficiency in written and spoken English
- Strong computer skills, including MS Office applications
- Position is open to all nationalities

We are looking for a highly motivated postdoctoral scientist in the area of cell growth regulation to work in the laboratory of Prof. Siniša Volarević. The successful candidate will be studying the molecular mechanism of a p53-dependent checkpoint response that is activated by a deficiency in ribosome biogenesis and its regulation in human cancer. Extensive expertise in molecular and cell biology is required. Broad experience in cancer research or genetics is highly desirable.

Project work package involved: “Enhancement of the research potential for cancer at MEDRI” (WP2)

Period of appointment: 26 months (contract extension possible via University of Rijeka - Faculty of Medicine)

Type of position: full-time

Application documents required: Curriculum Vitae (in English) including contact details of two references and Letter of intent

Please, submit your application documents to the following e-mail: vsinisa@medri.hr (Prof. Siniša Volarević, M.D., Ph.D)
